CONTENTS

Preface A ……. 9
Preface B ……. 11
Preface C ……. 13

Invited speakers articles

On Two Fundamental Approaches to the Development of Scientific Knowledge and their Implementation in Didactics of Mathematics, *Ivan Ganchev & Sava Grozdev* ……. 17

CHAPTER I
Representations and Visualization in Mathematics Education

The Impact of Iconic Representations in Solving Mathematical Problems of the Fractions Division, *Charalambos Efstathiou, Androulla Petridou, Athanasios Gagatsis* & *Panagiota Kalogirou* …….. 31

The Impact of Different Representations in Solving Non-Proportional Stereometry Problems, *Kalogirou Panagiota, Kattou Maria, Michael Thanasia* & *Gagatsis Athanasios* ……... 43

Students' Performance and Representational Pictures. What Do Students Believe? *Kyriacoulla Evangelou, Katerina Tsimpimpaki* & *Athanasios Gagatsis* …….. 55

Operative Apprehension of Geometrical Figures by Primary and Secondary School Students', *Paraskevi Michael, Athanasios Gagatsis, Iliada Elia, Eleni Deliyianni, Annita Monoyiou* & *Areti Panaoura* ……. 67

CHAPTER II
Implementation of Technology in Mathematics Education

Training Teachers of Mathematics in the use of Modern Information Technologies for Teaching, *Asen Rahnev* & *Evgenia Angelova* ……...…… 79

Interactive Performance-Based Assessment of ICT Skills, *Georgi Tuparov, Daniela Dureva-Tuparova & Sonia Tapankova* …… 85

Methodological Aspects of Computer-Based Tuition in Mathematics, *Ivaylo Staribratov* …… 93

Standardization of the Development of Educational Dialogue Computer Programs, *Philip Petrov, Alexander Popov* & *Ridvan Itsufov* …….. 99

The Secrets of the M-Configuration of a Triangle, *Svetoslav Bilchev* …….. 111

Methods for Solving Systems Trigonometric Equations with Two Unknowns with and without a Computer, *Vanya Danova & Asen Velchev* …….. 119

CHAPTER III
Problem Solving in Mathematics Education

Support Students in Creating New Mathematical Problems, *Emiliya Velikova* … 131

The Sense of the Successful Mathematics Teacher, *Harry Alexiev* ……. 141

Matrix Approach in Solving Problems in Connection with the Teaching Content in Higher Schools, *Ivan Ganchev, Iliya Gyudzhenov* & *Lilyana Karakasheva* … 149

Cognitive Interests and the Creative Activity of Students in the Education in Mathematics, *Rumjana Mavrova* & *D. Boikina* …….. 159

On the Quadratic Function Again, *Sava Grozdev & Tsetsa Bajcheva* 165

Individual Specific Abilities of Motivated Students in Problem Solving, *Tania Tonova* ……... 173

Perelman's Geometric Method of Solving Liquid Pouring Problems, *Zdravko Lalchev, Margarita Varbanova & Irirna Voutova* …… 181

CHAPTER IV
Learning and Teaching in Geometry

On Using a Dynamic Geometry Software in the Comprehension of the Similarity of Triangles, *Evgenios Avgerinos & Andreas Marinos* ……. 193

Models of the Real Projective Plane and Linear Combination of them, *Grozio Stanilov* & *Slavka Slavova*…… 201

Generalized Non-Archimedean Twin Circles of the Arbelos, *Hiroshi Okumura* …… 207

Motivation of Students for Research Work Using Rotation Bodies Geometry, *Ivanka Marasheva-Delinova* & *Emil Delinov* …… 213

On the Concept of a Quadrilateral in the School Geometry Course, *Kliment Vassilev & Donka Pashkuleva* …….. 223

Circumscribed and Orthogonal Archimedean Circles in Generalized Arbelos, *Masayuki Watanabe* ……. 229

Congruences in Triangular Nets, *Sava Grozdev* & *Toni Chehlarova* ……. 239

Developing Geometric Thinking Skills Through Dynamic Diagram Transformations, *Stavroula Patsiomitou & Anastassios Emvalotis* …… 249

Explorations with Rotational Solids, *Toni Chehlarova & Evgenia Sendova* ….. 259

CHAPTER V
Mathematics Education at University Level

The New Pythagorean Brotherhood, *Boyan Lalov* 271

Computer Algebra – a Good Reason to Enhance Interest and Enthusiasm in Mathematics Classes, *Elena Varbanova* ……. 279

Writing Teaching Materials for Projects in Mathematics Education from the Design of Everyday Things, *Fernando Castro-Gutierrez* …….. 289

Development of Combinatorial Skills for University Students in Computer Science, *Galina Momcheva-Gardeva & Stoyan Kapralov* ……. 293

Framework for Project-Based Training Provided to First-Year Students of Mathematics, *Ivan Shotlekov* …… …… . 305

Combining Non-Formal and Formal Discussion Has a Psychological Effect on Student Participation in Solving Problems, *Krassimir Tarkalanov* …….. 315

An Attempt at Optimizing the Organisation and Methodology in the Seminars on Mathematical Analysis, *Lilyana Karakasheva-Yoncheva* ……. 323

Teaching Mathematics in Higher Technological Education: The Situation

in Greece, *Michael Voskoglou.* …… 333

Roleplaying Games in the Hospitirane Classes, *Natalia Toncheva, Georgi Dimitrov & Plamena Peneva* ……... 343

Exercises as a Tool for Understanding the Terminology in the Learning Process of Data Structures, *Valentina Dyankova & Stoyan Kapralov* …… 349

CHAPTER VI
Research in Various Topics of Mathematics Education

Mathematics Teachers and New Technologies. A Case Study in Dodecanese Island Schools, *Andreas Marinos & Evgenios Avgerinos* …….. 357

Integrating Mathematics and Informatics Content Knowledge in Specialized Mathematics Training, *Asen Rahnev & Kosta Garov* …… 365

Method of the Project for Interactive Training in Mathematical Didactics, *Darinka Galabova* …….. 375

Professional-Family Interactions in Dyscalculia Treatment, *Dora Levterova* … 385

Certain Elements of Geometry in Greece and Cyprus in the 19th Century. A Detailed Reference on Center of Gravity and Triangles Similarity Founded in Kores Geometry Text Book Dated 1903, *Evgenios Avgerinos, Costas Demetreades & Athanasios Gagatsis* …… 393

On Mathematics Technics for the Study of Tourism Growth and it's Repercussions in the Area of Rhodes Island, *Gerasimos Antonatos, Andreas Marinos & Evgenios Avgerinos* …….. 407

Motivating Liberal Arts Students to Understand Mathematical Concepts through Mathematics Quotations, *Iordanka Gortcheva* ……. 419

Adapted Algorithmic Prescriptions for the Carrying out of Specific Mathematical Activities, *Julia Ninova* …….. 429

Number Analysis and Solution of Addition and Subtraction Problems in 6-Year-Old Children, *Kosyvas Georgios* …… 439

On X-Science Study in Mathematics Instruction, *Marga Georgieva* …… 451

A Model of a System for Centralized Synchronization of Independent Applications, *Nikola Valchanov, Todorka Terzieva & Anton Iliev* …… 459

The Triad of Activities Solving, Formulating and Transforming of Mathematical Problems, *Vassil Milushev* …….. 467
